Subject: GV City Council Agenda Item

Dear Council Members,

At the August 11, 2009 Grass Valley City Council meeting, Fire Chief Tony Clarabut introduced an item recommending the formation of an ad-hoc multi-agency committee to review and make recommendations for furthering the integration of Fire / EMS services. The Grass Valley City Council approved his recommendation at that meeting and appointed Council Member Dan Miller to serve on the committee. The City of Nevada City and the Nevada County Consolidated Fire District have also been invited to participate in this committee. I have asked the City Manager to place this item on the agenda for the August 26, 2009 Nevada City City Council meeting for discussion and possible selection of a Nevada City Council Person act as a representative. Attached is the staff report provided by Chief Clarabut. Please contact prior to the August 26th date if you have questions.

Respectfully,

Sam Goodspeed
Fire Chief
Nevada City Fire Department

**City of Grass Valley
City Council and Redevelopment Agency
Agenda Action Sheet**

Council Meeting Date: August 11, 2009 **Date Prepared:** August 4, 2009

Prepared by: Tony Clarabut, Fire Chief

Title: Appointment a Council Member to an ad-hoc multi-agency committee created to review and make recommendations for furthering the integration of Fire / EMS services.

Agenda: Administrative

Recommended Motion: That City Council Member _____ be appointed to serve on a tri-agency committee for the purpose of reviewing options, providing input and making recommendations on the further integration of fire and EMS services provided by the Grass Valley and Nevada City Fire Departments and the Nevada County Consolidated Fire District.

Background Information: In 1996 the City of Grass Valley and the Nevada County Consolidated Fire District (NCCFD) began, with the joint staffing of a fire station, a process of integrating the operations functions of their respective fire departments. In 2003 the Nevada City Fire Department became a part of this integrated Fire/EMS operations delivery system with the joint staffing of another fire station with NCCFD. This integrated operations delivery system is now referred to as the Joint Operational Area (JOA) and has grown in scope to provide a closest resource response regardless of jurisdiction, a combined fire prevention bureau (GVFD and NCCFD only), shared duty officer coverage and standardized operating procedures.

In spite of the efficiencies gained to date, managers believe that opportunities still exist, particularly in the administrative and management functions of the three agencies, where combining efforts can yield benefits that will improve the overall level of service delivered to the citizens. Because changes within these areas may involve organizational changes, the Fire Chiefs are recommending the formation of an ad-hoc committee to review and provide input on proposals and ultimately take recommendations back to the various governing bodies for consideration.

Agenda Item # _____

City of Grass Valley City Council and Redevelopment Agency Agenda Action Sheet

The make-up of the committee is proposed to be an elected official from each agency, the fire chief of each agency and a labor representative from Local 3800. The city manager and city administrator will be present as ex-officio member. The fire chiefs, in addition to being members, will serve as staff to the committee. The committee will also have access to subject matter experts in the areas of finance, human resources, operations, training and fire prevention. It is anticipated that the committee will meet on a regular basis during the plan development stage. If implementation of organizational changes is the outcome of the committee effort, the committee could be expected to meet on an as needed basis during this phase as well. The entire process is estimated to take as long as one year to complete.
